CAMPUS VISION:
Equipping the next generation of Christian storytellers through faith, training, and real-world production.

STUDIO SEVEN TFI

Transformation Film Institute (TFI) is a 501(c)(3) nonprofit organization dedicated to equipping Film Evangelists for the world. Through professional film education, hands-on production, mentorship, and biblical discipleship, we prepare Christian storytellers to use the power of cinema to share the Gospel and impact culture for Christ.

For more than a decade, TFI has trained students to produce films that combine artistic excellence with biblical truth. Our graduates gain real-world experience by working alongside industry professionals on feature films, documentaries, short films, and media projects that inspire hope and transform lives.

Today, we are building TFI Studio 7, our permanent Christian filmmaking campus. This campus will provide classrooms, a professional soundstage, editing suites, student housing, and production facilities where future generations of Christian filmmakers can learn, create, and serve together.

Every gift helps us train the next generation of FAITH filmmakers who will carry the message of Jesus Christ to audiences around the world through the universal language of film.

Mission: Equipping Film Evangelists for the World.

Vision: The Great Commission Through Great Cinema.

We don't just graduate filmmakers. We send Film Evangelists
